Dear MIM Alumni,

I am excited to announce that I will be offering the **Anatomy and Energy II** class via **telephone conference line**.

Day:/Time: Thursdays from 3:00-5:00 p.m. PST.

Dates: 11/4, 11/11, 11/18, 12/2, 12/9, 12/16 [no class 11/25].

Tuition: \$350.

The class would consist of the following:

- meditation
- discussion of prior material
- discussion of main lesson
- meditation on universal blueprint of information, diseases and pathogens studied

Since we would be having the class via teleconference panels would not be included, but I would give each student an energetically based assignment on working with the topic covered. Then during the next class we would review your experiences. Since we will not be having panels the class will probably be shorter around 2 hours, but could run over as needed/desired.

In this class you will learn how to identify more readily specific physical conditions that are often causing havoc in a person's physical life, such as:

- Perceive the intuitive resonance of common disease such as cardiovascular disease, diabetes, cancer, and many others. You will also learn the basic pathophysiology of these diseases (what they are doing in the body) and how they correlate to the energetic system of the body.
- Energetically identify and compare pathogens such as bacteria, virus, parasites, yeast, and mold
- Explore a deeper understanding of blood cells and energetically identify them so that you can more easily perceive disorders such as infection and inflammation.
- Learn how to track specific causations of illness (i.e. the different reasons why a person is sick) through learning a system which helps to identify multiple causations and triage them.
- Learn an easy and effective way to help understand more clearly what the physical body needs, i.e. specific foods, specific supplements, etc.

-Thoroughly review the information learned in Anatomy and Healing I.

In a nutshell from the class you will be better able to track and energetically identify physical conditions that inevitably show up in an energetically based practice, whether or not you identify yourself as a medical intuitive. This information will also help you navigate any personal healing crisis or that of friends and family.

I look forward to our Student-teacher relationship!

In Health,

Melissa Patterson

Q&A

What is a "teleclass"? A teleclass is a class that is taught via a telephone conference line.

How does a student connect into a teleclass? You will be given a phone number and access code to call into the class at the appropriate time.

How do I participate as a student in a teleclass? The student participates in the same way as other classes in the sense that they will be receiving information from the teacher and can also ask questions as well as have dialogue about the topic being taught.

How do I register and pay for this class? Register via Academy website. Pay tuition with credit card through the Academy website or postal mail a check to the Academy.
