FREQUENTLY ASKED QUESTIONS: DISTANCE EDUCATION PROGRAM

1) Why are the online classes over twice the amount of time to complete?

The similar campus courses also include a second weekly night for students to practice their skills. Also the campus students are supported by four classroom teaching assistants who they can contact during the week for mentoring; plus the TAs meet with students privately before class each week for special private sessions. Hence the campus course hours are almost equal to the distance course hours.

2) Is there a counselor I can talk to ahead of time that can guide me through what classes I really need?

You may contact the academy and students and faculty email contact information will be given to you so you may communicate to them about the program After you decide to enroll you must first register on-line and pay the \$25 enrollment fee. Next a long form is emailed to you where you give us information about yourself, interests, education, etc. From this information we recommend courses for you to take. The full tuition payment is then due of \$350. After you choose a course you are given contact info for the instructor and you have a phone chat with instructor to determine if the course is a good fit for you or not. After that phone chat you can proceed into the course with that instructor; choose another course; or withdraw from the program. After the initial phone chat if you choose to withdraw your full tuition, minus enrollment fee of \$25 is refunded. If you withdraw after beginning the course a pro-rated tuition refund is given.

3) If I were to attend onsite, is there a different price for out of state students? No.

4) Does each class after to be paid for in full before I start or is there a payment plan?
In full as we have no payment plan.

5) Would I take the courses in a specific sequence?

We make recommendations after you fill out the two enrollments forms. You make the choice. No sequence.

6) How much time, typically, would I have with the instructor of the course?

Initial phone conversation and then emails after you complete each assignment. According to your needs phone conversations can be scheduled. There are two regular phone consultations one at mid-term and one at final assignment. Your teacher gives feedback to your emails assignments *each time you complete them*. Then go on to the next assignment. The course is designed so that students have expert mentoring guidance

at each assignment. Thus you benefit from their professional insights as you move through the assignments and the practice work.

7) On average, how much do the course materials cost per class?

The required course materials for most of the courses are the book and 8-tape or CD set, *Intuition Medicine® the Science of Energy*, by Francesca McCartney, PhD. This \$70 book-set is what the campus students use as well. We recommend that you also purchase Dr. McCartney's new book: *BODY OF HEALTH: The New Science of Intuition Medicine®*. You also receive a book list with each course and these additional books can usually be borrowed from a public library.

8) Would it be possible to speak with someone involved in the distance learning program - either an instructor or a student? I'd like to connect with someone to get a better sense of this program before enrolling.

Please email us first with your questions and include your telephone number. We will address your initial questions via email and then follow that with a telephone conversation. Also include your postal address so that we may possibly refer you to an alumni practitioner in your area who you could contact for a chat or a professional session.

9) What else do I need to know about the distance program? How do I begin enrollment?

Each distance course is paced from 12-20 weeks depending on how much time you spend on each assignment. As this program is designed for the independent adult learner, you may begin your course at any time and work through the material at your own pace. Within this context, courses vary between 12 to 20 weeks depending on the class content and instructor. Maximum length of course is 6 months. If the course is not completed within 6 months a re-enrollment fee is incurred plus an additional instructor fee. All the info regarding the program is on the Distance Education page of our website. Details are available in the following document: [Intuition Medicine Programs](#) . Course Length: As this program is designed for the independent adult learner, you may begin your course at any time and work through the material at your own pace. Within this context, courses vary between 12 to 20 weeks depending on the class content and instructor. Rather than a correspondence course this is an interactive distance learning course. You have email and phone communication with the instructor through the duration of the course. After you complete each assignment you email your completed work to the teacher who responds with feedback, comments and directives.

10) How do I begin?

After you make the registration payment of \$25 you will receive two enrollment forms; after you complete and return those forms to us you next make the course payment of \$350 in order to continue the process. After you choose the course(s) that you wish to take our registrar will email you an overview of the course syllabus. Please read it completely and then contact your instructor to set up your initial teacher-student phone communication. After this first phone conversation you may choose to continue in that

course, choose another course or elect to not join our program. If you elect to continue we will email you the entire course syllabus and you may begin the program under the mentorship of the instructor whom you spoke with on the phone. If you elect to not join the program all tuition except for the registration fee will be refunded.

11) Do the Distance courses include a campus portion? If I am in Sausalito may I attend campus courses?

The distance education courses do not include a campus portion, but if you are in Sausalito you may sit in on whatever courses are being offered. Those courses though might not correspond exactly to the one that you are enrolled in as a distance student.

12) Can I transfer my Distance courses to the campus Master in Intuition Medicine® (MIM) certification program? How are the MIM classes designed?

After the pre-requisite courses are completed the MIM is one evening a week for nineteen months with the option of attending a second open member night on Wednesdays which is our "Practicum" where students participate in peer practice with faculty mentoring. The MIM also includes a six month post graduate professional internship.

Campus pre-requisite courses are: CPI; Intuition Medicine: Healing 1 & 2 and Intuition Meditation. The equivalent pre-requisites can be taken as these distance courses: Grounding; Aura, Life-Force; Chakras; Personality & Intuition (CPI); Kundalini.

13) Are there similar certified or accredited Energy Medicine schools in the USA?

Our program is unique as it is a body of information, techniques and curriculum that the founder, Francesca McCartney has designed as a wholistic program. Other certified energy medicine schools are Holos University, Missouri; and BBSH, Florida.

14) How do I receive a certificate for the training?

Upon completion of each course an Intuition Medicine® certificate with the name of the course you completed will be printed and mailed to you.

15) Is there an equivalency in terms of semester credit hours?

The calculation is based on the Carnegie international university system:

72 Instruction hours per class/3 credits

576 Instruction hours for the entire course/24 credits

Distance Education Courses:

- DEP 526: Grounding: The Foundation of Intuitive Awareness (3 credits)
- DEP 527: The Energy Anatomy of the Chakra System (3 credits)
- DEP 528: Aura, Life-Force & Earth Energy Healing Systems (3 credits)
- DEP 529: Kundalini Energy - Catalyst for Creativity and Health (3 credits)
- DEP 530: How to Use Intention & Affirmation in Energy Medicine (3 credits)
- DEP 531: Color in Energy Healing and Meditation (3 credits)
- DEP 532: The Male/Female Energy Anatomy System (3 credits)
- DEP 534: Children & Intuition: Raising an Intuitive Child (3 credits)

- DEP 520: Personality and Intuition: California Psychological Inventory & Myers-Briggs Type Indicator. (3 credits)
