

Using the Language of Intuition for Creating Health, Positive Energy and Vitality

Francesca McCartney, PhD

Omega Institute

Monday through Friday, August 10 - 15, 2008

5-day course

Rhinebeck, New York

www.eomega.org

Dr. McCartney has taught the concept of “*Intuition as a natural human sense*” since 1984 at the Academy of Intuition Medicine®. Francesca presents Intuition as the language for discovering how to connect with your inner spiritual self and as a guide for self-healing. This workshop is based on her book *Body of Health* which is included in the course fee.

Intuition is your *First Sense!* During the week you experience the connection of intuition, healing and spirituality. We journey on an exciting exploration into your intuitive nature through intellectual dialogue, active practice with energy tools, guided meditations, and hands-on experiential sessions. Francesca teaches with three senior faculty who offer participants personal energy sessions as part of the workshop.

Through the sense of Intuition we discover:

- Healing practice of Earth-Grounding for nourishing your body and emotions
- Hands-on techniques for balancing the Aura and Chakra systems
- How to generate your personal Life-Force energy for vitality
- Source of positive energy for creating harmonious relationships
- Intuition as the voice of inner spiritual wisdom
- Creation of a communication link to healing guides

Francesca McCartney, PhD, is president of Energy Medicine University and the Academy of Intuition Medicine in California. Working as an “intuitive” in the medical field since 1976, Francesca teaches lay people and healthcare practitioners energetic techniques to nurture the body and spirit by an effective hands-on healing therapy.
